What Is Healing?

Peter Winchell

A series of dialogues for Health Professionals.

- ▶ *What is the role of community in healing?*
- ▶ *How do we address the whole person?*

These and other cutting edge topics will be explored in this series as we delve deeper into understanding the nature of healing: What are the components of healing? What contributes to healing? What interferes with healing? What potentiates healing? Benefit from hearing new perspectives. The understanding constructed by the group will be deeper, broader, and greater than you could achieve alone.

9 hours ONLY \$145 first night FREE Wed Sep 12, 19, 26 7 - 10 pm

Focus On Radiant Health

Michael Bohdan

A workshop with Michael Bohdan OMD LAc

Do you know what it feels like to be radiantly healthy, fully Alive & Well?

Health is a powerful reflection of all dimensions of your life. In this series we will explore Radiant Health through the dimensions of self responsibility / self love, breathing, sensing and moving. Each week we will build on the next giving you the opportunity to experience how fully alive you can be!

This technique involves engaging all of one's sense-abilities so that listening expands beyond hearing to feeling, tasting, smelling and seeing. It involves communicating your experience and being received without judgement or evaluation. Health professionals will find this a powerful tool to use in their practice with clients to clear detrimental subconscious images and beliefs.

12 hours \$290 Wed Oct 3, 10, 17, 24 7 - 10 pm

A FREE Introductory Evening with Michael Bohdan

This evening event will provide you with an opportunity to open deeply to a state of well being. Through the use of the dyad technique, a practice in the art of listening, we will open into the energetic frequency of harmonizing the being, mind and body. **FREE Intro Wed Sept 5 7 - 9 pm**

Healus Center

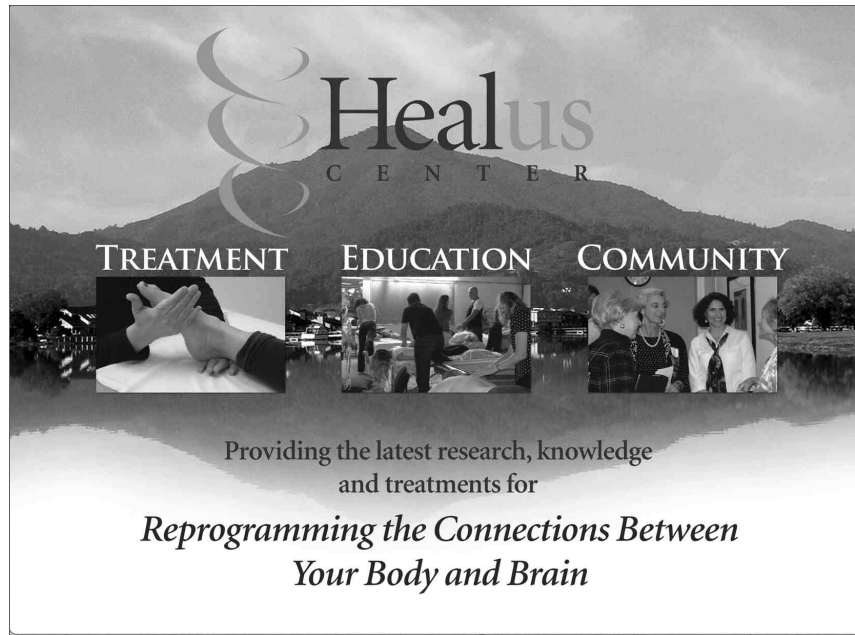

For 20 years

Alive & Well! Institute of Conscious BodyWork has provided quality education to a superior breed of bodywork practitioners throughout the San Francisco Bay Area and the world.

We have trained over 10,000 massage and bodywork professionals.

This year, as we mark the completion of our second decade as the premier massage and bodywork school in the San Francisco bay area, we are also celebrating the successful one year anniversary of our professional treatment center, expanding to the whole building and including: NeuroFeedback, Acupuncture, Chiropractic, NeuroMuscular Reprogramming®, brain function facilitation, hands-on stress reduction and emotional release techniques.

The Healus Neuro Rehab Center and the Institute of Conscious BodyWork are working together in our new location to bring you the latest research, knowledge and treatments for reprogramming the connections between your body and brain. Come in for a free 1/2-hour neuromuscular coordination assessment. We have solutions for those hard to solve body problems.

Lectures, Dialogues & Classes

Join Alive & Well! and the Healus Center for a series of dialogues & classes enquiring into the nature of health and healing in today's world. Explore with us the importance of conscious attention and intention on healing and the opportunity to know radiant health and experience ecstatic aliveness by dialoguing, freeing the breath, and moving fluidly in our bodies.

In our fall lecture series, hear about the impact of shock and trauma to the spine and what it takes to free our bodies to be resourceful once again after injury to the head and spine.
